## EXPERIENCE

---

### DotClick LLC.

Full-Stack MERN Developer

Karachi, Pakistan

*Feb 2025 - Present*

- Started as a Junior Full Stack Developer and gradually promoted to Mid-level based on performance and technical growth.
- Currently leading a team of developers at Dotclick, managing development cycles, task allocation, and client communication.
- Specialized in building and maintaining business-focused web applications including SaaS and CRM platforms for clients across multiple industries.
- Contributed to full-stack development using React, Node.js, Express, and Apollo to deliver scalable and efficient solutions.
- Worked closely with the design and product teams to convert business requirements into functional and visually appealing interfaces.
- Enhanced application performance and optimized backend APIs to ensure seamless data flow and improved user experience.
- Introduced development standards, reusable component structures, and Git workflow improvements to boost productivity.
- Provided mentorship to junior developers, conducted technical reviews, and ensured adherence to modern best practices.

### Askari Technologies.

Full-Stack MERN Developer

Karachi, Pakistan

*Dec 2024 - Feb 2025*

- Improved frontend performance by **25%** via optimized React state management and reusable components.
- Implemented **JWT authentication & Stripe (payments + subscriptions)**, securing online transactions.
